

# Andorid Programming

## Week 1

Mina Jung

EECS, Syracuse University

Spring 2017

# Part I

## Course Overview

# Outline

## Information

- Lectures and Help Sessions
- Teaching Staff
- Textbook
- Lab Environment

## Introduction

- Topics
- Course Schedule

- Grading Policy
- Lab Assignments
- Filtering Test

## Final Project

- Groups
- Milestones
- UI Design
- Grading

## TAs' Presentation and Talk

# Lectures and Help Sessions

- Lectures

- Where: Newhouse 1 – 101
- When: Friday 11:40 AM – 2:25 PM

- Help Sessions

- Where: CST 3-212
- When: Monday through Thursday 5:10 PM – 7 PM

# Staff

- Instructor: Mina Jung, Ph.D.
  - Office: CST 4-129
  - Email: [mijung@syr.edu](mailto:mijung@syr.edu)
  - Office Hours: T/Th 1 PM to 3 PM, or by appointment
  
- Teaching Assistant: Ricky Laishram
  - Email: [rlaishra@syr.edu](mailto:rlaishra@syr.edu)
  - Office Hours: T/W/Th Help Sessions
  
- Teaching Assistant: Rakesh Nallapeta Eshwaraiah
  - Email: [rnallape@syr.edu](mailto:rnallape@syr.edu)
  - Office Hours: M/Th Help Sessions

# Textbook

- Most of the contents that we cover can be found online, so textbooks are not necessary.

# App Development Enviroment

- Install Android Studio

## Testing Enviroment I

- Use Intel Hardware Accelerated Execution Manager (Intel HAXM) from Android Studio

## Testing Enviroment II

- Use a real Android device

## Testing Enviroment III

- Use Genymotion and Virtual Box
  - First, Install Virtual Box

# VirtualBox

- Second, Install Genymotion

## Focused Topics

- User Interface Design
- Server-side Programming
- Future Learning

# Course Schedule I

Week	Topics	Due
1/20	① Course Overview & Hello World!	
1/27	② Layout, Input Controls, Event handling, Colors and Styles	Assignment 1
2/3	③ Fragment, Master/Detail Flow, and ViewPager	Assignment 2
2/10	④ ListView and RecyclerView	Assignment 3
2/17	⑤ Action bar and Navigation Drawer	Assignment 4
2/24	⑥ Server-Side Programming I	Assignment 5 <b>App Idea</b>
3/3	⑦ Server-Side Programming II	Assignment 6

# Course Schedule II

3/10	⑧ AsyncTask and Thread	Assignment 7
3/17	<b>Spring Break</b>	
3/24	⑨ Get data from cloud Firebase	Assignment 8
3/31	⑩ Graphics and Animation	Assignment 9 <b>App Design</b>
4/7	⑪ TBA	Assignment 10
4/14	⑫ TBA	
4/21	⑬ <b>Filtering Test</b>	
4/28	⑭ <b>Final Project Demo, Final Report</b>	

## Grading Policy

10 Lab Assignments	50
--------------------	----

Final Project Idea	Pass/Fail
--------------------	-----------

Final Project Design	5
----------------------	---

Final Project Demo	45
--------------------	----

Filtering Test	Pass/Fail
----------------	-----------

---

Total	100
-------	-----

# Lab Assignments

- All Assignments are individual works and will be announced on a regular schedule.
- Each assignment will 5 points of your final grade.
- Students who are caught cheating will receive zero for that homework, and the final grade will only be B or lower.
- If students are caught cheating, they must immediately split from their current project group.
- Students who provide code for others to cheat will receive K grade deduction, with K being the number of people who copy their code.

# Filtering Test

- No weight for the final grade, just filtering whether any student has cheated
- if students cannot pass, they will be asked to do a second-round oral exam in front of the instructor and the TAs
- Test Info
  - When and Where: April 28, Newhouse 1 101
  - Time for CIS400 students – 11:40 AM to 12:50 PM (70 min)
  - Time for CIS600 students – 1:00 PM to 2:10 PM (70 min)

# Groups

- Group or Individual
  - up to 2 people in each group

- App Idea (**2/24**): come up with an idea and find a teammate if you want
- UI design (**3/31**): submit a design document to describe how your apps will be designed, and follow the MVC (Model-View-Controller) model
- Final Presentation (**4/28**): will be given 10 minutes to present and demonstrate to the judging panel

# UI Design (5 pts)– Wireframing Final Project App

- Sketch and Create Wireframes

# Grading

- Grading Criteria for Final Presentation
  - Uniqueness/Usefulness: 10%
  - Artistic Score: 20%
  - Technical Score: 70%
    - ▶ Basic Features (up to 60%)
    - ▶ Advance Features (up to 40%)
- Scoring system with  $3 + \alpha$  judges

# TA's Presentation and Talk

## Part II

### First App: Hello World!

# Outline

## Create a New Project - Hello World App

- Create Hello World! App
- Start Emulator (Genymotion) and Target VM Device
- Run 'App'

## Review Important Files

## File Structure

- MainActivity.java

- Life-cycle of Android App and Activity

- activity\_main.xml

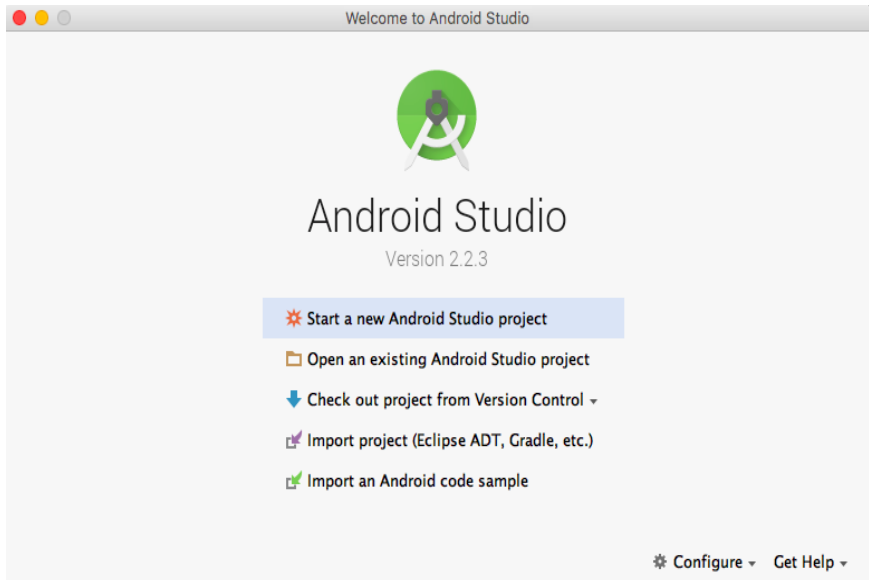

- AndroidManifest.xml

- Other files and folders under resource folder

## Android Programming

Create New Project

# New Project

Android Studio

## Configure your new project

Application name:

Company Domain:

Package name:  [Edit](#)

☐ Include C++ Support

Project location:  ...

Create New Project

 Target Android Devices

Select the form factors your app will run on

Different platforms may require separate SDKs

☒ Phone and Tablet

Minimum SDK

Lower API levels target more devices, but have fewer features available.  
By targeting API 24 and later, your app will run on < 1% of the devices that are active on the Google Play Store.  
[Help me choose](#)

☐ Wear

Minimum SDK

☐ TV

## Android Programming

└ Review Important Files

└ File Structure

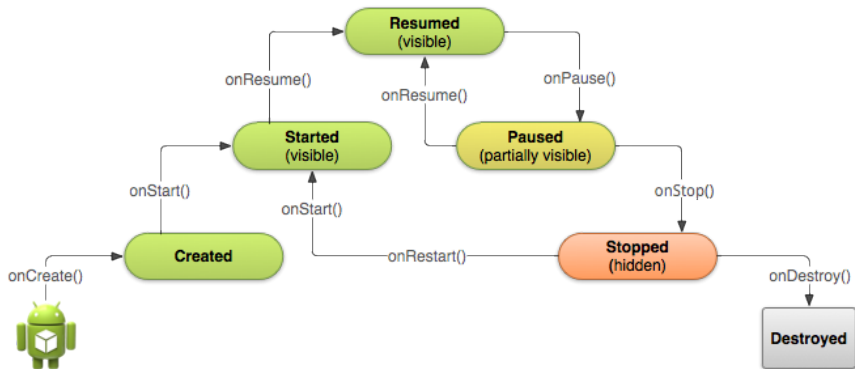

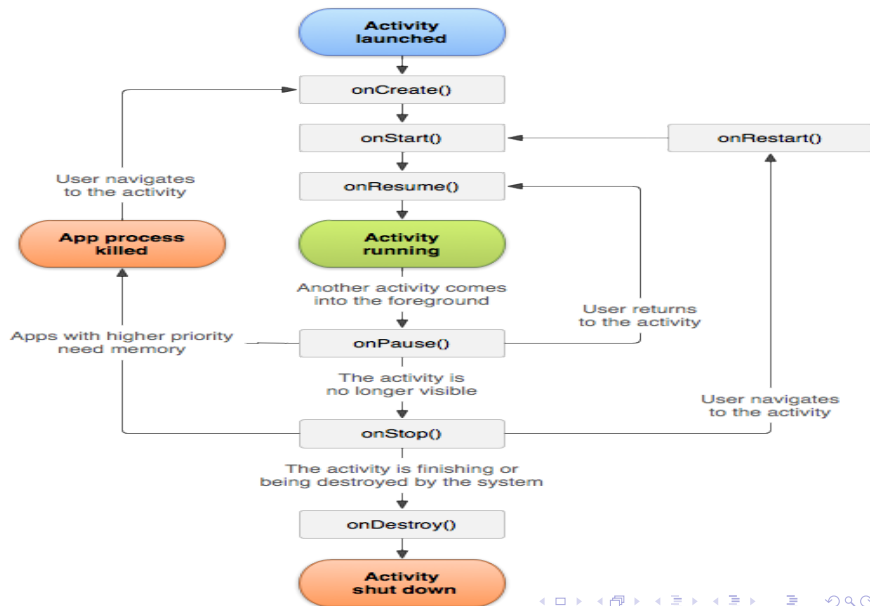

```
1 package com.example.mina.helloworldapp;
2
3 import android.support.v7.app.AppCompatActivity;
4 import android.os.Bundle;
5
6 public class MainActivity extends AppCompatActivity {
7
8     @Override
9     protected void onCreate(Bundle savedInstanceState) {
10         super.onCreate(savedInstanceState);
11         setContentView(R.layout.activity_main);
12     }
13 }
```

## MainActivity.java

- class definition for the activity
- Activity starts and loads the layout file (activity\_main.xml)
- under Java folder

```
1  <?xml version="1.0" encoding="utf-8"?>
2  <RelativeLayout xmlns:android="http://schemas.android.com/apk/res/android"
3      xmlns:tools="http://schemas.android.com/tools"
4      android:id="@+id/activity_main"
5      android:layout_width="match_parent"
6      android:layout_height="match_parent"
7      android:paddingBottom="@dimen/activity_vertical_margin"
8      android:paddingLeft="@dimen/activity_horizontal_margin"
9      android:paddingRight="@dimen/activity_horizontal_margin"
10     android:paddingTop="@dimen/activity_vertical_margin"
11     tools:context="com.example.mina.helloworldapp.MainActivity">
12
13     <TextView
14         android:layout_width="wrap_content"
15         android:layout_height="wrap_content"
16         android:text="Hello World!" />
17 </RelativeLayout>
```

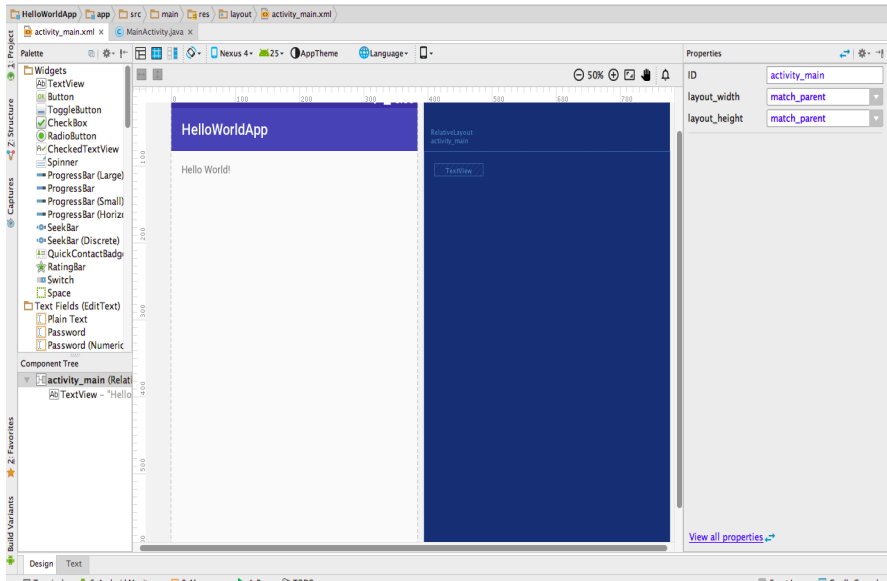

## activity\_main.xml

- layout (interface) definition for the activity
- contains a TextView element with the text "Hello World!"
- under /res/layout folder

# Andorid Programming

## └ Review Important Files

### └ activity\_main.xml

```
1  <?xml version="1.0" encoding="utf-8"?>
2  <manifest xmlns:android="http://schemas.android.com/apk/res/android"
3      package="com.example.mina.helloworldapp">
4
5      <application
6          android:allowBackup="true"
7          android:icon="@mipmap/ic_launcher"
8          android:label="@string/app_name"
9          android:supportRtl="true"
10         android:theme="@style/AppTheme">
11         <activity android:name=".MainActivity">
12             <intent-filter>
13                 <action android:name="android.intent.action.MAIN" />
14
15                 <category android:name="android.intent.category.LAUNCHER" />
16             </intent-filter>
17         </activity>
18     </application>
19
20 </manifest>
```

## AndroidManifest.xml

- describes the fundamental characteristics of app
- defines each of app components
- under /manifests folder

## • strings.xml

```
1 <resources>
2     <string name="app_name">HelloWorldApp</string>
3 </resources>
```

### strings.xml

- under /res/values folder for various XML files
- contains all the text definitions
- @string refers to strings.xml file (@string/app\_name = "HelloWorldApp")

## • /res/drawable

## • /res/mipmap
